**Celebrated Birthday.**  
Cooper Gooden had a birthday party all by himself last Friday, which was the seventy-first anniversary of his birth. He had been working a few days at his farm, near Ravenwood, fourteen miles northeast of Maryville, and put in a good day Thursday, "the hottest day so far. Friday, another hot day, after dinner, he concluded to celebrate his birthday by walking home. He was not disturbed or hindered by a crowd on the way home, as he saw no one inclined to take a constitutional on a day like that. He came into The Democrat-Forum office to pay his respects before 4 o'clock, and to wish us seventy-one years of happy, active life, such as he enjoys every day. There isn't a young man under thirty in Maryville who gets more genuine pleasure out of life than does Cooper Gooden, and not a few of them would sit down and think quite a spell before he would attempt a fourteen-mile walk in the sun with the thermometer registering 95 degrees. ## TAFT NEXT NOMINEE

INSURGENTS AT WASHINGTON ARE HOPEFULLY DIVIDED.

## DIED A GLORIOUS DEATH

Ex-President Wanted to Die There, Too, But Couldn't "Stay Put" Long Enough.

By VAN CLEVE.

Washington, D. C., June 10.—That President Taft will be the next presidential nominee of his party and that he will not be re-elected are pretty freely admitted in Republican circles here when the talk is not for publication. There has been a pretty general conviction for a year past that the president could not be elected again, and there has been a general desire both among the standpatters and the progressives to nominate a new man. This looked very promising a year ago when the president seemed to be getting in bad with everybody, and especially the progressive element, but at the present time there is no one in sight on whom the party could unite that would have the least show in a national convention.

In the earlier part of his administration he seemed to belong both to the party and to the crowd, but since the elections last fall and since Aldrich has severed his connection with the capitol in an official capacity, the president has been throwing considerable support to the progressives in the way of offices, in the hope of either winning them or dividing them. He has done both to a certain extent. The developments of the present year have been favorable to him.

The insurgents last fall presented a united fighting front, and they had ambitious ideas. They planned the downfall of Mr. Taft, a fight for a progressive nominee and a progressive platform, and in case they were turned down, they hoped to be able to capture the organization and the party control before another presidential campaign. In other words, after Mr. Taft shall have been defeated in 1912, as they expected, and still expect, they planned to gather up the fragments of the party and reorganize it along their own lines.

They have been unable to stand together, however, since last fall, and at the present time they are floundering in a sea of uncertainty and their situation is extremely unhappy. The reciprocity bill has occasioned much of their discomfort. They are hopelessly divided on this question. Some of them are for it, some are against it and some are waiting for more wisdom of the far seeing kind. The situation is such that instead of organizing to capture the party, a number of them are giving much more thought to saving their own scalps.

The president gave it out a few days ago that he was sure of fifty-eight votes for the reciprocity bill in the senate, which are more than enough to pass it. However, his friend Root has insisted on attaching to the bill an amendment to nullify it so far as it applies to the paper trust, one of the most pernicious of all the great families of trusts. Enough standpatters are with him to accomplish that result in the committee. That amendment will lose for the measure a good many Democratic and insurgent votes, and the house will absolutely refuse to accept it. So the situation is still precarious. The standpatters have juggled with it in committee as long as they could, and this is the rock on which they hope the ship will go to pieces.

By resorting to a similar device they succeeded in defeating the bill for a direct vote on senators in last session. They managed to attach an amendment that they knew was utterly impossible with the southern senators in the nature of a force bill.

Mr. La Follette was the nucleus around which the insurgency has grown and prospered, and he is a receptive candidate against Mr. Taft, but he cannot command the support on this proposition that he can on other questions of insurgency. Some of them have gotten under obligations to the president, others find the developments in their states demand that they drop the subject and protect their own fences, and then again out of the insurgent senators there are at least three presidential aspirants. La Follette, Cummins of Iowa and Borah of Idaho all consider themselves of presidential caliber.

While all this has been to the annoyance and confusion of the Repub-

licans it has been like manna from heaven to the Democrats. The reciprocity bill and the tariff reduction measures are what the people ordered last fall, and they lost no time in embracing the opportunity. The senate is determined not to swallow its medicine, and it is yet a question as to whether Mr. Taft on the one hand and the public on the other will be strong enough to pry their mouths open.

The next day after Mr. Taft and Colonel Roosevelt met at Baltimore last week and exchanged greetings, and each inquired about the other's family the newspapers contained many columns assuring their readers that Taft of his support in 1912. The next morning most of them contained a statement from the colonel to the effect that he had never pledged his support to any man nor intimated his preferences, and that the story was "made out of whole cloth." This misunderstanding between Colonel Roosevelt and the reporters calls to mind the caustic way in which Senator Raynor of Maryland paid his respects to the colonel a few days ago in the course of a speech in the senate.

Some one had suggested that the senator and the ex-president were together on the proposition to elect senators by direct vote, to which the senator replied in the following language:

"When I am on a platform I stay there. The ex-president, however, has a peculiar gift and talent of getting on and off of platforms that I do not possess. No other individual in the United States has the genius that he has in this connection. He can make a speech upon the platform of a railroad train, where the stations are only a mile apart, and recant at one station what he had said at the station he had just passed; he can recommend the selection of a progressive equal vehemence indorse an extreme senator in one state, and then with conservative in another; he can stand upon two political platforms, each radically differing from the other, and then deny that he stood upon either of them; he can coquette with both political parties and then start a party of his own, whose doctrines and principles consist of an incoherent medley of unconstitutional impossibilities; he can stand upon a platform before an intelligent audience of 3,000 people and tell them how at the dead of night upon the borders of an African jungle, upon the banks of a river that never had any existence, when no one was with him, he encountered and slaughtered a mythological animal that God had never created, and receive the wildest plaudits for the miraculous performance of this impossible accomplishment."

The senator has stood in the cold gray dawn of the morning after and realized in all its bitterness the effect of the colonel's ability to change. During the famous debate on the railroad rate bill under Mr. Roosevelt's administration he was vigorously urging his views and summoned the senator to the white house to ascertain how he stood on the matter. What followed may be best told in the senator's own language:

"When I gave him the information he said that he was pleased beyond expression that I had arrived at the same conclusion that he had reached. 'Now, stand to your colors,' he said. 'Do you recall what Colin Campbell said to his Sutherland Highlanders at Balaklava? I happened to remember the incident that, turning to his regiment, he said: 'Men, there is no place to retreat from. You must die where you stand. That is exactly it,' said the president. 'You have a wonderful memory, and, if necessary, we will die together.' The next day, when the vote was taken, I stood to my colors and died where I stood. Just as I was about dying, however, I looked around for the president, who had promised to die with me, but he had either died or retreated. On the contrary, I never saw anyone more constructively alive. Under the gentle guidance of the junior senator from Massachusetts he had slipped away during the night, while we were all slumbering, and there he stood, it is true, with the colors in his hand, but they were the colors of the opposition, and when I returned to life and met him a short time afterward the only explanation I received for this maneuver, unparalleled in point of strategy upon the pages of political history, was his remark to me: 'Well, you all died a glorious death. I was so sorry I could not be with you.'"

Mr. and Mrs. Fred J. Maler and daughter, Marie, went to Hopkins Monday to visit Mr. Maler's brother, Joseph Maler, and family.

### SERVANTS TO GUARD THEM.

Wife of Special American Ambassador to the Coronation Will Wear a Dress of White Satin at Chief Ceremony of the Occasion.

When Mrs. John Hays Hammond called for England with Mr. Hammond, special ambassador from the United States to the coronation of King George V., she carried the most heavily insured wardrobe ever taken out of this country. Mrs. Hammond obtained insurance on her gowns and jewels and, it is said, the aggregate amount of the policies will run into six figures.

The gowns have been chosen with delicate care and in keeping with the rigid court rules set down by Queen Mary and with the great honor bestowed on this American woman.

To see that no disaster occurs, a small corps of Mrs. Hammond's personal servants whom she took with her to London for the coronation will zealously guard the wardrobe until the very hour when Mrs. Hammond dons the various articles for the great gala affairs scheduled for this royal exhibition of fashion.

Handsome as are her gowns and costly as are her jewels, many of them of great historic value and priceless, it may be set down here that Mrs. Hammond and her husband will be the two most democratic figures participating in the great coronation festivities.

#### Other Envoys.

The Hammonds will share royal honors with the following envoys from other countries:

Duke of Aosta of Italy, Prince Henry and the crown prince and princess of Germany, Archduke Karl Franz of Austria-Hungary, Prince Johann George of Saxony, Prince Henry of the Netherlands, the crown prince of Denmark, the crown prince and princess of Sweden, the crown prince and princess of Roumania, Prince Fushimiva of Japan, Prince Chun, son of the regent of China, and the crown prince of Serbia.

Before the coronation ceremony Mrs. Hammond will be presented at Queen Mary's drawing room. However, Mrs. Hammond has met the queen on several occasions when her majesty ranked as the Duchess of York.

The first of these meetings took place at one of Queen Victoria's drawing rooms, when Mrs. Hammond was presented to the present queen; also the dowager Queen Alexandra, King Edward VII. and George V.

For years in their early married life, Mrs. Hammond says, an evening gown or any entertainment which would require one was something quite foreign to their mode of living in the great gold and silver mines of California and Mexico.

However, Mrs. Hammond returned to civilization and royal drawing rooms and distractions of this nature, she made up for times when her wardrobe consisted only of a few simple house dresses and a stout riding suit worn on the long trips from the railroad through lonely and dangerous mountain trails to the mining camps with her small children.

Mr. and Mrs. Alex Wells and little son of Skidmore and Mr. Wells' sister, Miss Marie Wells, returned Tuesday noon from Pryor, Okla., where they have been on a visit to their brother, Charles Wells and family.

Miss Vera Saylor of Albia, Ia., arrived in the city Tuesday morning for a week's vacation visit with her parents, Judge and Mrs. J. H. Saylor.

### MUST TAKE EXAMS FOR CERTIFICATES

Attorney General Major has given an opinion on the new school law on certificate, in which he holds that certificates are not renewable without examination, except such teachers who have had five years' experience and desire to continue in the employment of the same board. Mr. Major's opinion follows:

"County certificates issued prior to January 1, 1912, are not subject to renewal after that date, but are valid only for the life of the certificate, since at that date section 10942 R. S. 1909 ceases to be a law, and there is thereafter no authority for the renewal of such certificates, except that section 10942, session acts 1911, provides 'that any teacher who has had five years' experience in teaching and is employed as a teacher at the time of the taking effect of this act shall have his or her county certificate renewed an unlimited number of times on condition that said teacher continues in the same position (in the employment of the same board) and is faithful in the performance of his or her professional duties.'

"All county certificates issued prior to January 1, 1912, are valid only in the county in which issued and cannot be endorsed in other counties.

"Under the session acts, 1911, county superintendents have authority to endorse only second grade certificates, issued after January 1, 1912. Section 10943.

"All grades on a valid third grade certificate may be transferred to a second grade certificate. Section 10943.

## SENATE FAVORS DIRECT VOTE

Passes Resolution for Popular  
Choice of Senators.

FOR GOVERNMENT SUPERVISION

Vice President Caste Deciding Vote in  
Favor of Bristow Amendment—Long  
Political Debate Becomes Acrimonious  
During the Day.

Washington, June 13.—The senate, by 64 to 24, passed the resolution providing for an amendment to the constitution to provide for election of senators by direct popular vote. The Bristow amendment, giving to the federal government supervision of such elections, was adopted, 44 to 44, the vice president casting the deciding ballot. The house has already passed the resolution.

Senator Reed (Mo.) protested against the vice president casting the deciding vote. An amendment by Senator Bacon qualifying the Bristow amendment to prohibit federal supervision of election unless the state legislature refused or failed to act was defeated, 46 to 43. The resolution as amended was then finally adopted, 64 to 24.

The debate began shortly after noon. It soon drifted into a political affair. Democratic senators criticized Senator Bristow's change of attitude. Bristow framed the principal amendment in the nature of a substitute to the main proposition, and he sought to continue the supervision of senatorial elections in congress instead of delegating it to the states, as proposed by the house resolution.

In the last session the Kansas senator voted against an amendment offered by Senator Sutherland (Utah), which would have had the same effect as his own provision of this session.

Always for it.

Bristow said that in both instances his attitude had been dictated by his desire to do that which most certainly would insure the success of the popular election resolution.

Davis (Ark.) arraigned Bristow. Referring by name to Senators Cummins, Clapp and LaFollette, he declared "the insurgent crowd never have been sincere on any subject they have brought before the country."

The chair called Davis to order. Cummins denied Davis' statement of alleged insincerity as untrue. Bristow refuted the charge, saying that only under great provocation "would he pay any attention to what the senator from Arkansas said."

Bacon aroused feeling by declaring that great interests had been bringing enormous pressure to bear to defeat the resolution, and Senators Works, Guggenheim and Cummins arose to refute the allegation. Bacon explained that he was imputing no impropriety to any member.

The alleged defection of the progressives was scored by Senator Reed (Mo.), who declared the conversion of Bristow to Senator Sutherland's view point was "because of the negro vote in Kansas."

Clarke Broke Ranks.

Adoption of the Bristow amendment, which omitted the house provision transferring supervision of senatorial elections from congress to the state legislature, was made possible by Clarke (Ark.) casting the only Democratic vote for the proposition. The tie on that ballot would have been prevented if his vote had been cast with his party, with whom he later voted on the adoption of the resolution.

On the first ballot, five Republicans, Borah, Gronna, LaFollette, Poindexter and Works, all insurgents, voted against the provision. On the resolution as amended the vote, 64 to 24, was six more than the necessary two-thirds majority. Of the twenty-four negative votes, eight were cast by Democrats and sixteen by Republicans, as follows:

Republicans: Brandegee, Burnham, Crane, Dillingham, Gallinger, Heyburn, Lodge, Lorimer, Oliver, Page, Penrose, Richardson, Root, Smoot, Wetmore.

Democrats: Bacon, Bankhead, Fletcher, Foster, Johnston, Percy, Terrell and Williams.

### VICTORY FOR THE SHIPPERS

Railroads Restore Original Rates in  
Shipping Vehicles into Southwest.

Washington, June 13.—Manufacturers and shippers of vehicles and agricultural implements have won a victory over 250 railroads in the southwestern territory, the roads which had announced a material increase in freight rates on the articles named having agreed to restore the original rates following an inquiry by the interstate commerce commission. The commission therefore issued orders dismissing the complaints against the roads.

Fenced Public Lands.

Washington, June 13.—President Taft has refused to pardon Frank Simpson, a resident of Lawton, Okla., sentenced by the United States district court for the western district of Oklahoma to serve forty days in the county jail at Guthrie and to pay a fine of \$750 and costs on conviction of making unlawful enclosure of public lands.

## MANY ARE DEAD IN STORM IN EAST

Fifteen Are Killed in Lower End  
of Virginia.

Newport News, Va., June 13.—Sweeping out of the southwest with cyclonic velocity, a wind, rain and hail and electrical storm struck the lower end of the Virginia peninsula and left a trail of death and ruin.

It is difficult even to estimate the number of dead, for many small craft went down in the storm at various points along the James river and in Hampton roads. Conservative estimates placed the dead at not more than fifteen.

Three Killed at Allentown.

Philadelphia, June 13.—Three persons were killed, several were seriously injured, wires were prostrated, trees uprooted and buildings damaged by an electrical storm which visited this city and vicinity. At Allentown, the cyclonic wind prostrated live wires, which fell on a frame house with corrugated iron lining. As David S. H. Gackenbach and Hannibal J. Dotterer were leaving the building they touched the metal and were instantly killed. John Wagner was killed trying to rescue the men.

### MONDELL FIGHTS FREE WOOL

Wyoming House Member in Congress  
Leads Debate on Tariff Revision.

Washington, June 13.—Republican opposition to the Democratic wool tariff revision bill was voiced in the house by Representative Mondell (Wyo.), who resumed the debate on the measure. Mondell said the reduction of the raw wool tariff actually amounted to the abolishment of three-fourths of the protection now given the sheep raisers of the country.

"As the Democrats have virtually declared for free wool," he said, "this bill is to all intents and purposes a free wool bill, so far as the sheep raising business of America is concerned."

Mondell said William Jennings Bryan had actually controlled the recent Democratic caucus. His influence forced it to the acknowledgment, he said, that the 20 per cent duty left on raw wool did not represent true Democratic doctrine of tariff revision.

### FLOUR MILLERS MEET

Later they went to the floor of the board of trade and witnessed the auction of the first car of this year's wheat sold here.

The wheat came from Waggoner, Okla., and sold for 85¢, cents a bushel.

### WICKERSHAM IS RELUCTANT

Byrnes of Tennessee Desires Prosecution  
of Tobacco Officials.

Washington, June 13.—Attorney General Wickersham reported to the house that he did not consider it compatible with public interest to state whether his department is preparing criminal action against the American Tobacco company's officers.

Representative Byrnes of Tennessee introduced a concurrent resolution to direct the attorney general to immediately begin the prosecutions.

### A Hopeful Message to Scalp Sufferers and Men Whose Hair is Thinning.

Dandruff now—bald later. The same is true of scalp diseases. In fact baldness is a scalp disease. The trouble with the greasy salves and lotions, the so-called dandruff and scalp cures you have tried so far is that they don't do anything but temporarily relieve the itching and cake the dandruff so it doesn't fall until it is dried out again. Nothing can cure—really cure such troubles but a real scalp medicine that will kill the germs causing dandruff and scalp disease.

Learning from leading fellow druggists throughout America that they had found a whirlwind cure for dandruff, eczema and all diseases of the skin and scalp the Charles Love drug store, on proving to the laboratories compounding the treatment that it is the most prominent drug store in this city, secured the agency for the remedy. This remedy is Zemo, the clean, liquid preparation that kills the germ of disease, and Zemo Soap to wash the scalp or skin clear and clean of the dandruff or scale and by its antiseptic qualities soothe and heal.

Sold and guaranteed by druggists everywhere and in Maryville by Charles Love, druggist.

## Canada's Great Possibilities

"As a further Happiness for Canada," said Mr. Mitchener, "J. J. Hill had declared that Three-Quarters of the Wheat growing district was north of the International line in Alberta. They had millions of acres of the most fertile soil in the world."

First classlands throughout the winter wheat states of Idaho, Washington, California and Oregon are valued at \$50 to \$100 per acre, but across the border in Alberta more fertile lands than these range from \$10 to \$15 per acre and the cost of production is less. This is a business proposition, not slow to appeal to the present day progressive farmer and speculator. One-sixth to one-tenth down. Balance in five to ten years time. ## ELEGANT GLASS SHOW CASE AND ICE CHEST

J. R. Brink & Co., grocers in West Third street, put in a fruit and vegetable show case in their show window Tuesday morning that is attracting considerable attention.

The framework of the case is built of quarter-sawn oak, while the top, sides and ends are of plate glass. It is six feet and ten inches long, two feet and nine inches wide, and three feet and six inches high. In the center of the case is a partitioned section that will hold 150 pounds of ice, the separating walls being of plate glass. The shelves of the cases on either side of the ice box will be of plate glass. At present metal shelves are being used, as the plate glass shelves have not yet arrived.

The case is airtight and its construction is so perfectly done that it combines beauty and utility in a splendid way. It is the work of William Linneman of the Maryville Cabinet works which insures its perfect construction. Every particle of the woodwork is a dark quarter-sawn oak, handsomely polished. The case was designed by J. R. Brink of the firm of Brink & McCaffrey.

All of Maryville's grocery men and restaurateurs are seeking to give their customers fruit, vegetables and other eatables that are attractive to the peaty and dangerous little fly, free of any such taint, and all have built in screens and otherwise arranged for the safe keeping of their foodstuffs, but Mr. Brink's plan has eclipsed them all.

It is a great credit to Maryville that it has an establishment like the Maryville Cabinet works, capable of turning out such store fittings as this in as perfect a manner as any establishment in the large cities. Mr. Linneman's long experience in the factories of the east fits him to undertake anything in this line desired with an assurance of perfect satisfaction, and, best of all, "made in Maryville."

## Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use of it the stomach and bowel muscles are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do this Mr. G. Y. Dodson of Sanville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O. To those who are still skeptical there is a way to prove these assertions without a penny of expense: Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste, does not gripe and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request, the address is Dr. W. J. Caldwell, 2-100 Caldwell building, Monticello, Ill.

## G. W. E. DORSEY PASSES AWAY

Former Nebraska Congressman  
Dies at Salt Lake.

### SUCCUMBS TO LONG ILLNESS.

Prominent in State Politics for Years and Then Removed to Utah to Engage in the Mining Business—Veteran of Civil War.

Salt Lake, June 13.—George W. E. Dorsey, a former congressman from Nebraska and a well known mining man of this state, died at his residence in this city after a long illness. Mr. Dorsey was a native of Virginia. At the opening of the civil war he enlisted in the federal army in a West Virginia regiment, was commissioned lieutenant, promoted to captain and brevet colonel. During the greater part of the war he served on the staff of General Brooke as an aide and a portion of the time as adjutant, and consequently saw a great deal of service.

He came to Fremont, Neb., shortly after the war and engaged in the real estate business as land agent for the Union Pacific railroad and was later in the banking business. He always was active in politics and in 1884 was elected to congress as a Republican from the old Third district of Nebraska and re-elected in 1886 and 1888. He was a candidate in 1890, but the wave of Populism resulted in his defeat.

For the last fifteen years Mr. Dorsey had been extensively interested in mining in Nevada, Utah and Idaho, and for the last five years spent most of his time in Salt Lake, still retaining his residence in Fremont.

The remains will be brought to Fremont for burial tomorrow evening.

### CURTAILING LUMBER OUTPUT

Hearing in Suit Against Alleged Trust Is Resumed.

Kansas City, June 13.—The hearing of the state's ouster case against the alleged lumber trust, which began in St. Louis last month, adjourning there May 25, was resumed here, Assistant Attorney General Atkinson attending the inquiry for the state.

R. A. Long, president of the Long-Bell Lumber company of this city, was the first witness called. He said his company was a member of the Southern Lumber Manufacturers' association and that he had been an officer of the association, having been president during the years 1904 and 1905. He admitted that all the members of the association obeyed the order to curtail the output of yellow pine 33 1/3 per cent for six months in order to boost the prices, but his reply to a majority of the questions was "I do not remember."

## EDGAR COOKE IS PLACED ON TRIAL

Prosecuting Attorney Promises  
Some Startling Disclosures.

### RAIL OFFICIALS ALSO GUILTY.

Charged With Taking Millions of Dollars From the Big Four Treasury and Giving the Money to Favored Shippers—Woman in Case.

Cincinnati, June 13.—Sensational statements by attorneys for the state and defense gave promise that the trial of Edgar S. Cooke of Chicago for the alleged embezzlement of \$25,000 from the Big Four Railway company, which began here, may result in unexpected disclosures.

Denis F. Cash, assistant prosecuting attorney, declared in the opening statement for the state that it would be shown that Cooke had passed from a modest life on a small salary preceding his alleged peculations to one of extravagance.

He also declared that Cooke became acquainted with a woman, whose name would appear during the trial, and that to her he gave \$22,000 in the original packages, in which he is alleged to have abstracted it from the Big Four railroad. According to Cash, "the woman in the case" took the money to New York, where Cooke afterward joined her.

Charles W. Baker, attorney for Cooke, asserted that his client had been made a scapegoat to protect the company from punishment for rebating.

Baker said that officials of the Big Four railroad were suspected of taking millions of dollars from the treasury and paying them in violation of the federal laws to favorite shippers. "If the truth were known," said Baker, "Warriner did not take \$643,000, as charged, but probably took \$1,643,000, or \$2,643,000, but he took it for the purpose of the railroad."

"The Big Four," he said, "did not make any charges against Comstock, the former treasurer of the railroad. He said the Big Four railroad has not made any demand on the American Surety company, which signed Cooke's bond, and that P. A. Dewitt, auditor when Cooke was indicted, had been promoted since."

There's satisfaction in knowing you have a home when possibly all other investments fail—it gives you a feeling of security and demands the recognition of your fellow townsmen, because by building you show your faith in the future of the community. And every community is known by its deeds. You can help and at the same time help yourself. A home investment is always the most meritorious, and loss is less likely because you are dealing in values you understand and with people you know. Cooper Gooden had a birthday party all by himself last Friday, which was the seventy-first anniversary of his birth. He had been working a few days at his farm, near Ravenwood fourteen miles northeast of Maryville, and put in a good day Thursday, "the hottest day so far. Friday, another hot day, after dinner, he concluded to celebrate his birthday by walking home. He was not disturbed or hindered by a crowd on the way home, as he saw no one inclined to take a constitutional on a day like that. He came into The Democrat-Forum office to pay his respects before 4 o'clock, and to wish us seventy-one years of happy, active life, such as he enjoys every day. There isn't a young man under thirty in Maryville who gets more genuine pleasure out of life than does Cooper Gooden, and not a few of them would sit down and think quite a spell before he would attempt a fourteen-mile walk in the sun with the thermometer registering 95 degrees.

## TAFT NEXT NOMINEE

INSURGENTS AT WASHINGTON ARE HOPELESSLY DIVIDED.

## DIED A GLORIOUS DEATH

Ex-President Wanted to Die There, Too, But Couldn't "Stay Put" Long Enough.

By VAN CLEVE.

Washington, D. C., June 10.—That President Taft will be the next presidential nominee of his party and that he will not be re-elected are pretty freely admitted in Republican circles here when the talk is not "or publication. There has been a pretty general conviction for a year past that the president could not be elected again, and there has been a general desire both among the standpatters and the progressives to nominate a new man. This looked very promising a year ago when the president seemed to be getting in bad with everybody, and especially the progressive element, but at the present time there is no one in sight on whom the party could unite that would have the least show in a national convention.

In the earlier part of his administration he seemed to belong boots and baggage to Aldrich and his crowd, but since the elections last fall and since Aldrich has severed his connection with the capital in an official capacity, the president has been throwing considerable sop to the progressives in the way of offices, in the hope of either winning them or dividing them. He has done both to a certain extent. The developments of the present year have been favorable to him.

The insurgents last fall presented a united fighting front, and they had ambitious ideas. They planned the downfall of Mr. Taft, a fight for a progressive nominee and a progressive platform, and, in case they were turned down, they hoped to be able to capture the organization and the party control before another presidential campaign. In other words, after Mr. Taft shall have been defeated in 1912, as they expected, and still expect, they planned to gather up the fragments of the party and reorganize it along their own lines.

They have been unable to stand together, however, since last fall, and at the present time they are floundering in a sea of uncertainty and their situation is extremely unhappy. The reciprocity bill has occasioned much of their discomfort. They are hopelessly divided on this question. Some of them are for it, some are against it and some are waiting for more wisdom of the far seeing kind. The situation is such that instead of organizing to capture the party, a number of them are giving much more thought to saving their own scalps.

The president gave it out a few days ago that he was sure of fifty-eight votes for the reciprocity bill in the senate, which are more than enough to pass it. However, his friend Root has insisted on attaching to the bill an amendment to nullify it so far as it applies to the paper trust, one of the most pernicious of all the great families of trusts. Enough standpatters are with him to accomplish that result in the committee. That amendment will lose for the measure a good many Democratic and insurgent votes, and the house will absolutely refuse to accept it. So the situation is still precarious. The standpatters have juggled with it in committee as long as they could, and this is the rock on which they hope the ship will go to pieces.

By resorting to a similar device they succeeded in defeating the bill for a direct vote on senators in last session. They managed to attach an amendment that they knew was utterly impossible with the southern senators in the nature of a force bill.

Mr. La Follette was the nucleus around which the insurgency has grown and prospered, and he is a receptive candidate against Mr. Taft, but he cannot command the support on this proposition that he can on other questions of insurgency. Some of them have gotten under obligations to the president, others find the developments in their states demand that they drop the subject and protect their own fences, and then again out of the insurgent senators there are at least three presidential aspirants. La Follette, Cummins of Iowa and Borah of Idaho all consider themselves of presidential caliber.

While all this has been to the annoyance and confusion of the Repub-

licans it has been like manna from heaven to the Democrats. The reciprocity bill and the tariff reduction measures are what the people ordered last fall, and they lost no time in embracing the opportunity. The senate is determined not to swallow its medicine, and it is yet a question as to whether Mr. Taft on the one hand and the public on the other will be strong enough to pry their mouths open.

The next day after Mr. Taft and Colonel Roosevelt met at Baltimore last week and exchanged greetings, and each inquired about the other's family the newspapers contained many columns assuring their readers that Colonel Roosevelt had assured Mr. Taft of his support in 1912. The next morning most of them contained a statement from the colonel to the effect that he had never pledged his support to any man nor intimated his preferences, and that the story was "made out of whole cloth." This misunderstanding between Colonel Roosevelt and the reporters calls to mind the caustic way in which Senator Raynor of Maryland paid his respects to the colonel a few days ago in the course of a speech in the senate.

Some one had suggested that the senator and the ex-president were together on the proposition to elect senators by direct vote, to which the senator replied in the following language:

"When I am on a platform I stay there. The ex-president, however, has a peculiar gift and talent of getting on and off of platforms that I do not possess. No other individual in the United States has the genius that he has in this connection. He can make a speech upon the platform of a railroad train, where the stations are only a mile apart, and recant at one station what he had said at the station he had just passed; he can recommend the selection of a progressive equal vehemence endorse an extreme senator in one state, and then with conservative in another; he can stand upon two political platforms, each radically differing from the other, and then deny that he stood upon either of them; he can coquette with both political parties and then start a party of his own, whose doctrines and principles consist of an incoherent medley of unconstitutional impossibilities; he can stand upon a platform before an intelligent audience of 3,000 people and tell them how at the dead of night upon the borders of an African jungle, upon the banks of a river that never had any existence, when no one was with him, he encountered and slaughtered a mythological animal that God had never created, and receive the wildest plaudits for the marvellous performance of this impossible accomplishment."

The senator has stood in the cold gray dawn of the morning after and realized in all its bitterness the effect of the colonel's ability to change. During the famous debate on the railroad rate bill under Mr. Roosevelt's administration he was vigorously urging his views and summoned the senator to the white house to ascertain how he stood on the matter. What followed may be best told in the senator's own language:

"When I gave him the information he said that he was pleased beyond expression that I had arrived at the same conclusion that he had reached. 'Now, stand to your colors,' he said. 'Do you recall what Colin Campbell said to his Sutherland Highlanders at Balaklava? I happened to remember the incident that, turning to his regiment, he said: 'Men, there is no place to retreat from. You must die where you stand. That is exactly it,' said the president. 'You have a wonderful memory, and, if necessary, we will die together.' The next day, when the vote was taken, I stood with my colors and died where I stood. Just as I was about dying, however, I looked around for the president, who had promised to die with me, but he had either died or retreated. On the contrary, I never saw anyone more constructively alive. Under the gentle guidance of the junior senator from Massachusetts he had slipped away during the night, while we were all slumbering, and there he stood, it is true, with the colors in his hand, but they were the colors of the opposition, and when I returned to life and met him a short time afterward the only explanation I received for this maneuver, unparalleled in point of strategy upon the pages of political history, was his remark to me: 'Well, you all died a glorious death. I was so sorry I could not be with you.'"

Mr. and Mrs. Fred J. Maier and daughter, Marie, went to Hopkins Monday to visit Mr. Maier's brother, Joseph Maier, and family.

### SERVANTS TO GUARD THEM.

Wife of Special American Ambassador to the Coronation Will Wear a Dress of White Satin at Chief Ceremony of the Occasion.

When Mrs. John Hays Hammond called for England with Mr. Hammond, special ambassador from the United States to the coronation of King George V., she carried the most heavily insured wardrobe ever taken out of this country. Mrs. Hammond obtained insurance on her gowns and jewels and, it is said, the aggregate amount of the policies will run into six figures.

The gowns have been chosen with infinite care and in keeping with the rigid court rules set down by Queen Mary and with the great honor bestowed on this American woman.

To see that no disaster occurs, a small corps of Mrs. Hammond's personal servants whom she took with her to London for the coronation will jealously guard the wardrobe until the very hour when Mrs. Hammond dons the various articles for the great gala affairs scheduled for this royal exhibition of fashion.

Handsome as are her gowns and costly as are her jewels, many of them of great historic value and priceless, it may be set down here that Mrs. Hammond and her husband will be the two most democratic figures participating in the great coronation festivities.

Other Envoys.  
The Hammonds will share royal honors with the following envoys from other countries:

Duke of Aosta of Italy, Prince Henry and the crown prince and princess of Germany, Archduke Karl Franz of Austria-Hungary, Prince Johann George of Saxony, Prince Henry of the Netherlands, the crown prince of Denmark, the crown prince and princess of Sweden, the crown prince and princess of Roumania, Prince Fushimiva of Japan, Prince Chun, son of the regent of China, and the crown prince of Serbia.

Before the coronation ceremony Mrs. Hammond will be presented at Queen Mary's drawing room. However, Mrs. Hammond has met the queen on several occasions when her majesty ranked as the Duchess of York.

The first of these meetings took place at one of Queen Victoria's drawing rooms, when Mrs. Hammond was presented to the present queen; also the dowager Queen Alexandra, King Edward VII. and George V.

For years in their early married life, Mrs. Hammond says, an evening gown or any entertainment which would require one was something quite foreign to their mode of living in the great gold and silver mines of California and Mexico.

However, Mrs. Hammond returned to civilization and royal drawing rooms and distractions of this nature, she made up for times when her wardrobe consisted only of a few simple house dresses and a stout riding suit worn on the long trips from the railroad through lonely and dangerous mountain trails to the mining camps with her small children.

Mr. and Mrs. Alex Wells and little son of Skidmore and Mr. Wells' sister, Miss Marie Wells, returned Tuesday noon from Pryor, Okla., where they have been on a visit to their brother, Charles Wells and family.

Miss Vera Saylor of Albia, Ia., arrived in the city Tuesday morning for a week's vacation visit with her parents, Judge and Mrs. J. H. Saylor.

### NOTICE OF SPECIAL STATE ELECTION.

Notice is hereby given that pursuant to an act of the 46th general assembly of the State of Missouri, approved March 24th, 1911, an election will be held on TUESDAY, AUGUST 1, 1911, at the various polling places in said state for the purpose of the ratification thereof by the voters of said state of an act, in words and figures as follows:

PROPOSAL OF AN ACT OF THE 46TH GENERAL ASSEMBLY OF MISSOURI FOR THE RATIFICATION THEREOF BY THE VOTERS OF SAID STATE AT AN ELECTION TO BE HELD FOR THAT PURPOSE ON TUESDAY, AUGUST 1, 1911.

Said act of the general assembly being in words and figures as follows, to-wit:

#### AN ACT.

Authorizing and directing the contracting of the liability of the state of Missouri by the issuance of its state bonds in a sum, not to exceed three and one-half millions of dollars, and for the sale of said bonds, to provide means for the building, furnishing and other equipment of a new state capitol at the present seat of government of the state, and for the purchase of additional state capitol premises, and also providing for the payment of said bonds and interest accruing thereon.

Be it enacted by the General Assembly of the State of Missouri, as follows: Section 1. That the contracting of the liability of the state of Missouri by the issuance of its bonds in an aggregate sum, not to exceed three and one-half millions of dollars (rendered necessary by the unforeseen emergency of the destruction of the state capitol by fire), is hereby authorized and directed, said bonds to be in the denomination of one thousand or five hundred dollars each, or of both said denominations (as the state board of fund commissioners may determine) and be payable thirteen years from the issuance thereof; shall be payable to bearer in lawful money of the United States, and shall bear interest at a rate not to exceed three and one-half per centum a year (as the state board of fund commissioners may determine), payable semi-annually on the first days of January and July of each year, and to that end suitable coupons shall be attached to each bond for the payment of said interest; each coupon shall have a facsimile of the signature of the state treasurer engraved thereon. Said bonds shall be redeemable at the option of the state after eight years from date, shall be signed by the governor, and be countersigned by the secretary of state, with the great seal of the state attached, and shall be registered by the state auditor, to which he shall certify on each bond, and authenticate such registration by his signature and his official seal attached; said bonds, when so prepared and executed, under the supervision of the state board of fund commissioners, shall be sold to the best advantage by said board, but for not less than par. The proceeds of said sale or sales shall constitute a fund to be designated as the capitol building fund, and shall be applied exclusively to the building of a new state capitol at the present seat of government of the state, including the furnishing and other equipment of said building and the purchase by the state of additional capitol premises adjoining those now owned by the state. Provided, that three hundred dollars of said fund, or so much thereof as may be necessary, shall be applied to the furnishing and other equipment of said capitol, and two hundred thousand dollars of said fund or so much thereof as may be necessary, shall be applied to the purchase of land (adjoining the present state capitol premises) for additional state capitol premises. Provided, also that said building shall be constructed with native Missouri granite and stone. Contract or contracts for expenditures to carry out the purposes of this act in excess of said three and one-half millions of dollars, with interest collected thereon, shall, to the amount of said excess, be illegal and void and forever non-payable.

Sec. 2. That the general assembly shall and does hereby levy an annual tax of two cents on the one hundred dollars valuation of the taxable property in this state for the payment of the accruing interest on said bonds and for the creation of a sinking fund for the payment thereof, said taxes, beginning with the year 1912, to be levied and collected annually as in case of other state taxes in this state, until said bonds are fully paid.

Sec. 3. That this act shall go into effect and be in force from and after its ratification by the voters of this state at an election, to be held for the purpose, authorized by the general assembly, as contemplated and required by clause 3 of section 44, article IV of the Constitution of this state. Approved March 16, 1911.

### MUST TAKE EXAMS FOR CERTIFICATES

Attorney General Major has given an opinion on the new school law on certificate, in which he holds that certificates are not renewable without examination, except such teachers who have had five years' experience and desire to continue in the employment of the same board. Mr. Major's opinion follows:

"County certificates issued prior to January 1, 1912, are not subject to renewal after that date, but are valid only for the life of the certificate, since at that date section 10942 R. S. 1909 ceases to be a law, and there is thereafter no authority for the renewal of such certificates, except that section 10942, session acts 1911, provides that any teacher who has had five years' experience in teaching and is employed as a teacher at the time of the taking effect of this act shall have his or her county certificate renewed an unlimited number of times on condition that said teacher continues in the same position (in the employment of the same board) and is faithful in the performance of his or her professional duties."

"All county certificates issued prior to January 1, 1912, are valid only in the county in which issued and cannot be endorsed in other counties."

"Under the session acts, 1911, county superintendents have authority to endorse only second grade certificates, issued after January 1, 1912. Section 10943.

"All grades on a valid third grade certificate may be transferred to a second grade certificate. Section 10945.

"All scholastic grades for a first grade certificate must be certified from the office of the state superintendent of schools. Grades from a second or third grade certificate cannot be transferred to a first grade certificate, unless the papers for said certificates were graded by the state superintendent or were made in an approved summer school."

"According to section 10947 all grades made on papers graded by the state superintendent are valid in any county in the state, when prop-

erly certified from the office of the state superintendent of schools.

"In the session acts, 1911, there is no provision for the transfer of prior to January 1, 1911, to one issued after that date."

## Constipation Cure Free

With the first signs of constipation you resort to the home methods of relief, such as hot or cold water on arising, lots of stewed fruit with your breakfast, etc., but what do you do when these fail?

The majority then start on salts and purgative waters, then change to cathartic pills, etc. If you have gone through these various stages you know they were all useless, so far as permanent results go. Now you should try just once again, but try something practical and sensible, a remedy made and intended for the purpose you are trying to accomplish. Such a remedy, as thousands can testify, is Dr. Caldwell's Syrup Pepsin, which is guaranteed to be permanent in its results. Its ingredients are such that by a brief use of it the stomach and bowels are trained to again do their work normally, so that in the end you can do away with medicines of all kinds. That it will do this Mr. G. Y. Dodson of Sanville, Va., will gladly attest, and so will Mrs. S. A. Hampton of Portage, O. To those who are still skeptical there is a way to prove these assertions without a penny of expense. Simply send your name and address to Dr. Caldwell and obtain a free sample bottle. After using it, if you are then convinced it is the remedy you need, buy a fifty cent or one dollar bottle of your druggist and continue to use it for a brief time until cured. The directions are simple and the dose is small. It is pleasant to the taste, does not gripe and is promptly effective, and these statements are guaranteed or money will be refunded.

This remedy is over a quarter of a century old and is personally taken by more druggists than any other similar remedy on the American market. Because of its effectiveness, purity and pleasant taste it is the ideal laxative remedy for children, women and old folks generally. Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 600 Caldwell building, Monticello, Ill.

## SENATE FAVORS DIRECT VOTE

Passes Resolution for Popular Choice of Senators.

### FOR GOVERNMENT SUPERVISION

Vice President Casts Deciding Vote in Favor of Bristow Amendment—Long Political Debate Becomes Acrimonious During the Day.

Washington, June 13.—The senate, by 64 to 24, passed the resolution providing for an amendment to the constitution to provide for election of senators by direct popular vote. The Bristow amendment, giving to the federal government supervision of such elections, was adopted, 44 to 44, the vice president casting the deciding ballot. The house has already passed the resolution.

Senator Reed (Mo.) protested against the vice president casting the deciding vote. An amendment by Senator Bacon qualifying the Bristow amendment to prohibit federal supervision of election unless the state legislature refused or failed to act was defeated, 46 to 43. The resolution as amended was then finally adopted, 64 to 24.

The debate began shortly after noon. It soon drifted into a political affair. Democratic senators criticized Senator Bristow's change of attitude. Bristow framed the principal amendment in the nature of a substitute to the main proposition, and he sought to continue the supervision of senatorial elections in congress instead of delegating it to the states, as proposed by the house resolution.

In the last session the Kansas senator voted against an amendment offered by Senator Sutherland (Utah), which would have had the same effect as his own provision of this session.

#### Always for It.

Bristow said that in both instances his attitude had been dictated by his desire to do that which most certainly would insure the success of the popular election resolution.

Davis (Ark.) arraigned Bristow, referring by name to Senators Cummins, Clapp and LaFollette, he declared "the insurgent crowd never have been sincere on any subject they have brought before the country."

The chair called Davis to order. Cummins denied Davis' statement of alleged insincerity as untrue. Bristow refuted the charge, saying that only under great provocation "would he pay any attention to what the senator from Arkansas said."

Bacon aroused feeling by declaring that great interests had been bringing enormous pressure to bear to defeat the resolution, and Senators Works, Guggenheim and Cummins arose to refute the allegation. Bacon explained that he was imputing no impropriety to any member.

The alleged defection of the progressives was scored by Senator Reed (Mo.), who declared the conversion of Bristow to Senator Sutherland's view point was "because of the negro vote in Kansas."

#### Clarke Broke Ranks.

Adoption of the Bristow amendment, which omitted the house provision transferring supervision of senatorial elections from congress to the state legislature, was made possible by Clarke (Ark.) casting the only Democratic vote for the proposition. The tie on that ballot would have been prevented if his vote had been cast with his party, with whom he later voted on the adoption of the resolution.

On the first ballot, five Republicans, Borah, Gronna, LaFollette, Poindexter and Works, all insurgents, voted against the provision. On the resolution as amended the vote, 64 to 24, was six more than the necessary two-thirds majority. Of the twenty-four negative votes, eight were cast by Democrats and sixteen by Republicans, as follows:

Republicans: Brandegee, Burnham, Crane, Dillingham, Gallinger, Heyburn, Lodge, Lorimer, Oliver, Page, Penrose, Richardson, Root, Smoot, Wetmore.

Democrats: Bacon, Bankhead, Fletcher, Foster, Johnston, Percy, Terrell and Williams.

### VICTORY FOR THE SHIPPERS

Railroads Restore Original Rates in Shipping Vehicles Into Southwest.

Washington, June 13.—Manufacturers and shippers of vehicles and agricultural implements have won a victory over 250 railroads in the southwestern territory, the roads which had announced a material increase in freight rates on the articles named having agreed to restore the original rates following an inquiry by the interstate commerce commission. The commission therefore issued orders dismissing the complaints against the roads.

#### Fenced Public Lands.

Washington, June 13.—President Taft has refused to pardon Frank Simpson, a resident of Lawton, Okla., sentenced by the United States district court for the western district of Oklahoma to serve forty days in the county jail at Guthrie and to pay a fine of \$750 and costs on conviction of making unlawful enclosure of public lands.

### RODMAN WANAMAKER.

Merchant Who Carries Largest Insurance of Any Person in World.

#### INSURED FOR \$4,500,000

Rodman Wanamaker Adds \$500,000 to His Life Policies.

Philadelphia, June 13.—Although he already possessed the unique distinction of being the most heavily insured person in the world, Rodman Wanamaker, son of John Wanamaker and vice president of the Wanamaker establishment, has added another \$500,000 to his list of life policies.

When death removes the merchant there will accrue to his family from life insurance alone the sum of \$4,500,000. The policies embrace almost every known form of life insurance.

## MANY ARE DEAD IN STORM IN EAST

Fifteen Are Killed in Lower End of Virginia.

Newport News, Va., June 13.—Sweeping out of the southwest with cyclonic velocity, a wind, rain and hail and electrical storm struck the lower end of the Virginia peninsula and left a trail of death and ruin.

It is difficult even to estimate the number of dead, for many small craft went down in the storm at various points along the James river and in Hampton roads. Conservative estimates placed the dead at not more than fifteen.

#### Three Killed at Allentown.

Philadelphia, June 13.—Three persons were killed, several were seriously injured, wires were prostrated, trees uprooted and buildings damaged by an electrical storm which visited this city and vicinity. At Allentown, the cyclonic wind prostrated live wires, which fell on a frame house with corrugated iron lining. As David S. H. Gackenbach and Hannibal J. Dotterer were leaving the building they touched the metal and were instantly killed. John Wagner was killed trying to rescue the men.

### MONDELL FIGHTS FREE WOOL

Wyoming House Member in Congress Leads Debate on Tariff Revision.

Washington, June 13.—Republican opposition to the Democratic wool tariff revision bill was voiced in the house by Representative Mondell (Wyo.), who resumed the debate on the measure. Mondell said the reduction of the raw wool tariff actually amounted to the abolishment of three-fourths of the protection now given the sheep raisers of the country.

"As the Democrats have virtually declared for free wool," he said, "this bill is to all intents and purposes a free wool bill, so far as the sheep raising business of America is concerned."

Mondell said William Jennings Bryan had actually controlled the recent Democratic caucus. His influence forced it to the acknowledgment, he said, that the 20 per cent duty left on raw wool did not represent true Democratic doctrine of tariff revision.

### FLOUR MILLERS MEET

Witness at Kansas City Sale of First Carload of This Year's Wheat.

Kansas City, June 13.—The Southwestern Millers' league, composed of flour millers from Nebraska, Texas, Kansas, Oklahoma and Missouri, met here to discuss trade and traffic conditions. Later they went to the floor of the board of trade and witnessed the auction of the first car of this year's wheat sold here.

The wheat came from Waggoner, Okla., and sold for 86½ cents a bushel.

### WICKERSHAM IS RELUCTANT

Byrnes of Tennessee Desires Prosecution of Tobacco Officials.

Washington, June 13.—Attorney General Wickersham reported to the house that he did not consider it compatible with public interest to state whether his department is preparing criminal action against the American Tobacco company's officers.

Representative Byrnes of Tennessee introduced a concurrent resolution to direct the attorney general to immediately begin the prosecutions.

### A Hopeful Message to Scalp Sufferers and Men Whose Hair is Thinning.

Dandruff now—bald later. The same is true of scalp diseases. In fact baldness is a scalp disease. The trouble with the greasy salves and lotions, the so-called dandruff and scalp cures you have tried so far is that they don't do anything but temporarily relieve the itching and make the dandruff so it doesn't fall until it is dried out again. Nothing can cure—really cure such troubles but a real scalp medicine that will kill the germs causing dandruff and scalp disease.

Learning from leading fellow druggists throughout America that they had found a whirlwind cure for dandruff, eczema and all diseases of the skin and scalp the Charles Love drug store, on proving to the laboratories compounding the treatment that it is the most prominent drug store in this city, secured the agency for the remedy. This remedy is Zemo, the clean, liquid preparation that kills the germ of disease, and Zemo Soap to wash the scalp or skin clear and clean of the dandruff or scale and by its antiseptic qualities soothe and heal.

Sold and guaranteed by druggists everywhere and in Maryville by Charles Love, druggist.

### HARMONY.

There were no services Sunday morning, the church attending in a body the Children's day services at Myrtle Tree.

The Ridge people are rejoicing over the official "Saints Highway" decision.

Home Coming day will be observed at Harmony church Sunday, the 18th. A splendid program for the entire day is being perfected, with dinner on the church lawn at noon.

Notwithstanding the small amount of rainfall the prospects for a corn crop were never better, the corn being fully two weeks in advance of ordinary season.

The Lawson family picnicked in the woods on the Platte Thursday, the 18th, and report a wholesome, jolly time.

Rev. W. F. Null of Cameron, Mo., preached Sunday evening to a people who appreciated the good things he said.

### Left for Oklahoma.

Mrs. M. B. Clark and daughter, Miss Anna Clark, left Tuesday morning for Mangum, Okla., to spend the summer. Mrs. Clark has just closed a three years' service as librarian at the Northwest Normal. Miss Clark is a teacher in the public schools of Webster Grove, Mo.

Mr. and Mrs. D. E. Hotchkiss spent Sunday at Hopkins in the home of Mrs. Hotchkiss' sister, Mrs. George F. Davis. They were joined there by their parents, Mr. and Mrs. J. L. Hepburn.

## Canada's Great Possibilities

"As a further Happiness for Canada," said Mr. Mitchener, "J. J. Hill had declared that Three-Quarters of the Wheat growing district was north of the International line in Alberta. They had millions of acres of the most fertile soil in the world."

First class lands throughout the winter wheat states of Idaho, Washington, California and Oregon are valued at \$50 to \$100 per acre, but across the border in Alberta more fertile lands than these range from \$10 to \$15 per acre and the cost of production is less. This is a business proposition, not slow to appeal to the present day progressive farmer and speculator. One-sixth to one-tenth down. Balance in five to ten years time. ## ELEGANT GLASS SHOW CASE AND ICE CHEST

J. R. Brink & Co., grocers in West Third street, put in a fruit and vegetable show case in their show window Tuesday morning that is attracting considerable attention.

The framework of the case is built of quarter-sawn oak, while the top, sides and ends are of plate glass. It is six feet and ten inches long, two feet and nine inches wide, and three feet and six inches high. In the center of the case is a partitioned section that will hold 150 pounds of ice, the separating walls being of plate glass. The shelves of the cases on either side of the ice box will be of plate glass. At present metal shelves are being used, as the plate glass shelves have not yet arrived.

The case is airtight and its construction is so perfectly done that it combines beauty and utility in a splendid way. It is the work of William Linneman of the Maryville Cabinet works which insures its perfect construction. Every particle of the woodwork is a dark quarter-sawn oak, handsomely polished. The case was designed by J. R. Brink of the firm of Brink & McCaffrey.

All of Maryville's grocery men and restaurateurs are seeking to give their customers fruit, vegetables and other eatables that are attractive to the pesty and dangerous little fly, free of any such taint, and all have built in screens and otherwise arranged for the safe keeping of their foodstuffs, but Mr. Brink's plan has eclipsed them all.

It is a great credit to Maryville that it has an establishment like the Maryville Cabinet works, capable of turning out such store fittings as this in as perfect a manner as any establishment in the large cities. Mr. Linneman's long experience in the factories of the east fits him to undertake anything in this line desired with an assurance of perfect satisfaction, and, best of all, "made in Maryville."

## G. W. E. DORSEY PASSES AWAY

Former Nebraska Congressman  
Dies at Salt Lake.

### SUCCUMBS TO LONG ILLNESS.

Prominent in State Politics for Years and Then Removed to Utah to Engage in the Mining Business—Veteran of Civil War.

Salt Lake, June 12.—George W. E. Dorsey, a former congressman from Nebraska and a well known mining man of this state, died at his residence in this city after a long illness.

Mr. Dorsey was a native of Virginia. At the opening of the civil war he enlisted in the federal army in a West Virginia regiment, was commissioned lieutenant, promoted to captain and brevet colonel. During the greater part of the war he served on the staff of General Brooke as an aide and a portion of the time as adjutant, and consequently saw a great deal of service.

He came to Fremont, Neb., shortly after the war and engaged in the real estate business as land agent for the Union Pacific railroad and was later in the banking business. He always was active in politics and in 1884 was elected to congress as a Republican from the old Third district of Nebraska and re-elected in 1886 and 1888. He was a candidate in 1890, but the wave of Populism resulted in his defeat.

For the last fifteen years Mr. Dorsey had been extensively interested in mining in Nevada, Utah and Idaho, and for the last five years spent most of his time in Salt Lake, still retaining his residence in Fremont.

The remains will be brought to Fremont for burial tomorrow evening.

### CURTAILING LUMBER OUTPUT

Hearing in Suit Against Alleged Trust Is Resumed.

Kansas City, June 12.—The hearing of the state's case against the alleged lumber trust, which began in St. Louis last month, adjourning there May 25, was resumed here, Assistant Attorney General Atkinson attending the inquiry for the state.

R. A. Long, president of the Long-Bell Lumber company of this city, was the first witness called. He said his company was a member of the Southern Lumber Manufacturers' association and that he had been an officer of the association, having been president during the years 1904 and 1905. He admitted that all the members of the association obeyed the order to curtail the output of yellow pine 33-1-3 per cent for six months in order to boost the prices, but his reply to a majority of the questions was "I do not remember."

## EDGAR COOKE IS PLACED ON TRIAL

Prosecuting Attorney Promises  
Some Startling Disclosures.

### RAIL OFFICIALS ALSO GUILTY.

Charged With Taking Millions of Dollars From the Big Four Treasury and Giving the Money to Favored Shippers—Woman in Case.

Cincinnati, June 12.—Sensational statements by attorneys for the state and defense gave promise that the trial of Edgar S. Cooke of Chicago for the alleged embezzlement of \$25,000 from the Big Four Railway company, which began here, may result in unexpected disclosures.

Denis F. Cash, assistant prosecuting attorney, declared in the opening statement for the state that it would be shown that Cooke had passed from a modest life on a small salary preceding his alleged peculations to one of extravagance.

He also declared that Cooke became acquainted with a woman, whose name would appear during the trial, and that to her he gave \$22,000 in the original packages, in which he is alleged to have abstracted it from the Big Four railroad. According to Cash, "the woman in the case" took the money to New York, where Cooke afterward joined her.

Charles W. Baker, attorney for Cooke, asserted that his client had been made a scapegoat to protect the company from punishment for rebating.

Baker said that officials of the Big Four railroad were suspected of taking millions of dollars from the treasury and paying them in violation of the federal laws to favorite shippers. "If the truth were known," said Baker, "Warner did not take \$643,000, as charged, but probably took \$1,642,000, or \$2,643,000, but he took it for the purpose of the railroad."

"The Big Four," he said, "did not make any charges against Comstock, the former treasurer of the railroad. He said the Big Four railroad has not made any demand on the American Surety company, which signed Cooke's bond, and that P. A. Dewitt, auditor when Cooke was indicted, had been promoted since."

### CARRIE NATION'S WILL

Ten Thousand Dollars Is Value of the Estate of Saloon Smasher.

Washington, June 12.—The will of Carrie A. Nation, who died at Leavenworth, Kan., has been filed in the probate court here. The will is dated 1907 and in it Mrs. Nation declared herself to be a resident of Washington. The estate is valued at \$10,000. It consists of houses and lots in Guthrie and Shawnee, Okla., an account of \$1,000 in an Alexandria (Va.) bank and a life insurance policy.

To the Woman's Christian Temperance union of the state of Kansas Mrs. Nation bequeathed her "Book of My Life" and all rights thereunder. The will bequeaths \$60 a month from the estate to Mrs. C. A. McNab, the only child of Mrs. Nation. After the death of her daughter, a house and three lots in Guthrie are devised to the Free Methodist church of Oklahoma.

After the death of Mrs. McNab, her children are to receive the sum of \$500 each. The remainder of the estate is to be given to the Carrie Nation Home for Drunkards' Wives and Widows at Kansas City and for a home for children twelve years old and under. The will appoints Henry D. Gordon of this city executor.

## Money Invested in a Home Brings You Real Rewards

that cannot be measured along in dollars and cents. There's satisfaction in knowing you have a home when possibly all other investments fail—it gives you a feeling of security and demands the recognition of your fellow townsmen, because by building you show your faith in the future of the community. And every community is known by its deeds. You can help and at the same time help yourself. A home investment is always the most meritorious, and loss is less likely because you are dealing in values you understand and with people you know. We have supplied the lumber for the homes of many of your friends who are now on the road to success, and want to talk with you whenever you're ready.
